Information Disclosure Statement

The information disclosure statement filed July 18, 2007 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered. Note: two of the foreign references and the US reference were previously cited by the examiner.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Rock et al (4,351,575). Rock teaches a pull-out guide (Fig. 8) having a carcass rail (3), an intermediate rail (2), a running rail (1) and anti-friction bearings (4,5) in between the rails. The bearings includes rollers (6) which are horizontally offset with respect to each other and run on the same track (2'; on opposite sides thereof).

Allowable Subject Matter

Claims 2-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed July 18, 2007 have been fully considered but they are not persuasive. Namely, the examiner contends that Rock does teach offset cylindrical rollers that roll on the same track. The track is being considered horizontal portion 2' of the rail; this single/same track having two sides which accommodate the offset rollers 6. By taking the broadest reasonable interpretation of the term track, it is argued that Rock does teach all of the limitations of claim 1.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
